Too little time to investigate? Try our virtual presentations.

An explanation of Sabino's capabilities delivered to your desktop.

In this 24/7 world, it is increasingly difficult to find time for another meeting. Go2ten recognise and appreciate this, our solutions save that valuable resource, time. We now practise what we preach and present our services at your convenience.

The online presentations describe the full power and capability of Sabino in only 10 minutes. Each segment is 2 minutes long and covers more powerful feature than the previous one.

Initially, we work through the usability of Sabino based solutions, covering efficient browsing, print quality PDFs, email links and search. We then explain how a non-technical administrator can easily content manage the information.

Advanced features include RSS feeds and delivery to mobile devices as well as email alerts and bespoke PDF generation. We conclude with customisation, explaining how Sabino can provide a solution for you.

Presentations are available on the Sabino website:
www.sabino.co.uk/presentations.

More information will be published there soon.

Notes to Editors

Go2ten is an expert software development founded in London in 1998 with three core beliefs.

- Delivering functionality, not playing with technology
- Software development is a process not a product
- Thinking one step ahead with technology and user requirements

Reliable, cost effective and flexible systems are delivered utilising our modular components. Close working relationships with our clients ensure high quality end product.

Our experience in a wide range of industries including advertising, banking, PR and the public sector helps us find the unique solution for each individual client. There is an industry standard solution to your I.T. situation.
