

Go2ten is an expert software development founded in London in 1998 with three core beliefs.

- Delivering functionality, not playing with technology
- Software development is a process not a product
- Thinking one step ahead with technology and user requirements

Reliable, cost effective and flexible systems are delivered utilising our modular components. Close working relationships with our clients ensure high quality end product.

Our experience in a wide range of industries including advertising, banking, PR and the public sector helps us find the unique solution for each individual client. There is an industry standard solution to your I.T. situation.

Graeme Rimmer - Managing Director

graeme@go2ten.com

Graeme graduated in Mathematics from Cambridge University before doing a postgraduate degree in Computer Science at University College, London. He also qualified as a Sun Microsystems Java Certified Programmer in 1998.

He spent 3 years at advertising agency Bartle Bogle Hegarty where he was responsible for all internal and external bespoke system development.

After leaving BBH Graeme joined an independent I.T. consultancy, Interati Ltd., where he managed and developed applications including internet delivery of clinical research for the Centre of Evidence-based Medicine and an online directory of London social activities.

He then gained extensive experience at Deutsche Bank, London designing and developing enterprise trading applications for worldwide delivery before forming Go2ten Ltd.

Nicola Clark - Senior Consultant

nicola@go2ten.com

www.go2ten.com | info@go2ten.com

Company registration number: 4207645 | VAT number: 774 2245 25

Nicola has worked as a Sales and Marketing Executive in a wide range of industries including manufacturing, search engine optimisation and new media. Her graphic design skills also drive the underlying usability of Go2ten's software for users and administrators alike.

Communicating technology to end users, regardless of their technical ability, is an essential aspect of software development. Nicola achieves this, from initial marketing contact to defining how individual client requirements are resolved by Go2ten solutions.

Her enthusiasm to ensure the client is happy with the end product drove her to widen her skill base with the addition of web design. Proficient in this new discipline very quickly, she guarantees that the client receives software that looks and feels good as well as operating efficiently.

Joel Brown - Consultant

joel@go2ten.com

After graduating from Cambridge University in Chemistry, Joel spent 4 years working in the City, at Citibank and Rothschilds, building web based trading systems. He then moved into e-commerce, developing secure online transaction systems for a wide range of industries.

He's since added digital printing and bespoke design to his repertoire, completing his hand in internet technologies. It is in these areas where he contributes most to Go2ten. He empowers users in customising both the design and content of their print quality documents while maintaining corporate identity and branding.

Dan Moore - Consultant

dan@go2ten.com

Dan specialises in software for mobile devices. He has worked on music, movies and interactive maps for all the major portable products including mobile phones, Palm Pilots, Pocket PCs and Blackberrys.

Some of this is the technology of the present, some is the technology of the future - when your only computer is the one you carry in your pocket. Dan's expertise ensures that Go2ten's software is ready for that time. The transition to tomorrow's technology will be seamless.
